# Sauver la forêt de Brotonne et les marais de Norville d'un saccage RTE

**PETITION**

Ce document est une copie du texte de la pétition mise en ligne sur change.org et consultable à l'adresse suivante : https://www.change.org/p/sauver-la-for%C3%AAt-de-brotonne-et-les-marais-de-norville-d-un-saccage-rte

Figure également dans ce document la liste des **19 308 signataires**, ainsi que leur commentaire, arrêtée au vendredi 19 janvier 2024 à 12h00.

**TEXTE DE LA PETITION**

Sauvons un million de m² de forêt normande !
RTE a lancé en novembre 2023 une concertation pour la "Transition énergétique des boucles de Seine" pour préparer l'implantation prochaine d'une ligne à Très Haute Tension qui pourrait traverser la Presqu'île de Brotonne.
La concertation publique est ouverte jusqu'au 19 janvier et le rapport d'enquête sera remis tout début février. En signant cette pétition, vous affirmez au Commissaire Enquêteur votre rejet du projet dans sa version Brotonne.
Vous voulez nous aider encore plus ?

Laissez un commentaire sur le site de la consultation ICI, onglet « Partagez votre avis » puis "Déposer une contribution". C'est le plus important pour peser dans la consultation. Il suffit de dire "je suis contre le fuseau Brotonne et la destruction de la forêt".

Faites circuler cette pétition : chaque signature compte !

———————

Avec une centaine d'hectares de forêt déboisée et des pylônes de plus de 70 mètres de haut (soit un immeuble de 20 étages), ce projet de lignes à Très Haute Tension apparaît comme une intrusion inattendue, menaçante et brutale, à rebours de tous les engagements des habitants et des acteurs institutionnels en faveur de la préservation des milieux naturels.

**1. La forêt de Brotonne** est un espace d'attraction du tourisme, partagé par de nombreux usages. C'est un gisement de beauté, de calme et de ressourcement pour les citadins de la région. Il s'agit également d'une réserve de biodiversité et d'un élément majeur du stockage de carbone.
Or cette opération, dans sa configuration Brotonne, aboutirait à déboiser un sillon de 100 à 150 mètres de large sur 7 à 8 km.
C'est donc au moins 100 à 120 hectares de forêt qui disparaissent. En ajoutant les massifs qui resteront isolés par le sillon, c'est plusieurs centaines d'hectares de forêt qui seront impactés.
En bleu ci-dessous, le fuseau Brotonne :

**2. Les paysages de la presqu'île sont précieux**. Ils font l'objet de politiques de préservation et de restauration : les haies replantées par les habitants et par le Parc, les « trognes », les prairies humides. Ils sont variés, remarquables de beauté, de patrimoine, d'écologie, de milieux de vie pour les humains, les animaux et les végétaux.
La route des chaumières, axe touristique de premier plan pour la Presqu'île traverse par exemple Aizier et Vieux Port, et permet à de nombreux touristes de découvrir ces paysages.
Pour mesurer le degré d"impact sur les paysages, il faut considérer la taille de ces équipements.
Les pylônes, supports des câbles feront au moins 70 voire 80 mètres de haut, et 40 mètres d'envergure. Ils seront espacés de 400 mètres à 500 mètres et renforcés aux endroits où la ligne change de direction. Cela correspond à la hauteur d'un immeuble de plus de 20 étages.

**3. La visibilité de cette ligne de taille imposante sera maximale dans le secteur de Norville**. Ce sont des prairies humides et des cultures qui seront traversées et ces ouvrages seront vus à des kilomètres de distance : depuis Norville, Vatteville-la-Rue, Saint-Maurice d'Etelan, Petitville, Rives-en-Seine, Aizier , Vieux Port, etc….

Que l'on se trouve sur la rive droite ou sur la rive gauche, l'ouvrage sera omniprésent : comme une déchirure sur la plaine de Norville et comme une couronne métallique sur la forêt visible depuis la vallée.

On peut objectivement parler de catastrophe paysagère.

**En conclusion,** ce projet de liaison THT dans sa version « Brotonne » porte une atteinte très grave à l'intégrité du territoire de la Presqu'île de Brotonne.
Désastreux pour les espaces naturels, désastreux pour les paysages et le patrimoine, ce projet est un retour en arrière dramatique en matière de politiques de l'environnement.

En signant cette pétition, vous affirmez au Commissaire Enquêteur votre rejet du projet dans sa version Brotonne.

| Donovan REMY | Maulévrier Sainte Gertrude | 76490 | 06/01/2024 | "Dans une logique de décarbonation de notre société selon RTE...on envisage de détruire tous ces arbres qui décarbonent justement... Je vais souvent me balader dans cette zone, et ce serait un crève-coeur si ce projet se réalisait... Non, mais vraiment qu'est ce qu'on cherche ? Détruire cette magnifique forêt ? Détruire le bucolique paysage de Vieux Port ? et l'image de cette Normandie connue dans le monde entier... Mais qui sont ces gens qui osent imaginer de tels projets ? Tout ça pour le monstre Port Jérôme, qui est l'exemple parfait de ce qu'on ne doit plus faire avec les énergies fossiles..." |

Aidez nous à contrecarrer ce projet  Merci M.B" |

N'est-il pas possible de créer cette ligne ailleurs, sans endommager cette magnifique vallée, même si elle doit coûter plus cher ? Protégeons la forêt et le vivant SVP. Non au projet de cette ligne à haute tension telle qu'il a été présenté." |

| Christine ROUCHOUZE | | 69600 | 13/01/2024 | "C'est un sacrilège et un écocide. Cela ne respecte pas du tout les accords de Paris et de la COP21 contre le réchauffement climatique car raser des forêts, des prairies, des sites naturels qui sont primordiaux pour la diminution des températures, va totalement à contre sens de ce qu'il faut faire. C'est une catastrophe écologique que nous ne voulons pas. Nous voulons sauver, sauvegarder et garder notre patrimoine et notre espace naturel dont dépend notre biodiversité et dont nous dépendons pour une vie saine et durable sur le long terme. Tous ces territoires nourriciers et paysages essentiels qui font notre beau pays, que le monde nous envie. Stop à ces projets destructeurs et obsolètes. Un autre avenir respectueux de l'environnement est a créer." |

| Philippe Rideau | Le Tablier | 85310 | 16/01/2024 | "Non au Fuseau « Brotonne » Car c'est le plus long et donc le plus cher et le plus impactant sur les sites naturels tel que la forêt domaniale de Brotonne. Même en contournant cette forêt, la projet reste économiquement irréaliste... C'est ce que l'on appelle un 《 projet de détournement d'attention 》, pour pouvoir faire passer l'une des 2 options principales sans que les oppositions se fixe sur elles et fassent perdre du temps aux promoteurs du projet..." |

| Théa Sune-Brossard | Avignon | 84000 | 16/01/2024 | "Je suis contre l'installation d'une ligne à haute tension prévue pour son installation au travers de la forêt de Brotonne, à raison de 120 à 150 ha issus la destruction de la forêt de Brotonne. Forêt, qui pour ses bienfaits, contribue à la régulation de l'atmosphère car toutes forêt est un poumon vert vital pour l'air que l'on respire et pour contribuer à freiner le déséquilibre climatique actif sur la planète. Je suis contre la destruction des forêts pour tout aussi préserver la biodiversité plus que jamais en déséquilibre actuellement. Et, contre la destruction d'une forêt, telle que la forêt de Brotonne, qui pour beaucoup de personnes, est une source d'apports naturels tout à fait bénéfiques à et précieux, irremplaçables en cas de destruction du milieu naturel qui les procurent." |

| S Tiger | Nantes | 44300 | 16/01/2024 | "Ceux qui sont "aux manettes" et qui décident de projets ÉCOCIDES comme celui-ci, sont totalement aliénés, et sous l'emprise de croyances illusoires, selon lesquelles la technologie va pouvoir nous sauver de tout, et donc du pire ! Le problème étant que ce sont eux qui ont le pouvoir et qui décident de ce qui se fait ou pas ! Tout ce qu'ils décident et les voies qu'ils imposent au commun des mortels, participent de la destruction de l'environnement naturel ! Leurs arguments, sont toujours les mêmes : l'économie, la croissance, la construction d'infrastructures, de logements, etc, le business et juste le business quoi ! C'est juste ahurissant et terriblement révoltant de les voir continuer à faire dans le grand n'importe quoi, alors qu'il n'y a rien de plus urgent que de sanctuariser tous les endroits où l'environnement naturel est encore présent et redonner sa place à la nature le plus possible ! Rien n'y fait, on peut se mobiliser, aller en justice quand on le peut car cela coûte cher (et ils le savent bien), écrire aux élus, aux députés européens, etc, ils ne changent en rien leurs plans de destruction du |

|---|---|---|---|---|
| Josette Guiraud | Toulouse | | 16/01/2024 | "Pourquoi une ligne haute tension quand il faut économiser l'énergie en particulier l'électricité surtout en plus si elle est nucléaire...? Que l'on ne fasse pas croire qu'elle est verte. pour refroidir les réacteurs nucléaires il faut de l'eau de grandes quantités, cette dernière va devenir de plus en plus rare. Pour le combustible nucléaire, nous sommes tributaires de pays où la démocratie est bafouée...Réfléchissons un peu, faîtes travailler vos neurones. Merci..!" |

| Aline Carl | Boulleville | 27210 | 17/01/2024 | "Je réside en lisière de la forêt de Brotonne et connais bien le territoire. Nous pouvons éviter de saccager la forêt en utilisant la voie haute tension déjà existante. Comment justifier à nos enfants que nous détruisons leur forêt pour pérenniser leur avenir? Ça n'a pas de sens." |

| Catherine COQUET | Saint-Pierre-en-Port | 76540 | 17/01/2024 | "Je signe parce que cette forêt magnifique est un poumon pour la région (pour les humains et la biodiversité) et que nous sommes, en principe, collectivement concerné par tout ce qui peut aller dans le sens de la préservation de l'environnement et notamment des forêts qui absorbent les gaz carboniques et autres... et nous permettent de respirer. Quel drame ce projet de ligne à très haute tension !!!!" |
